

Experiencing WGPS

Term 2 Woodgrovian Experience

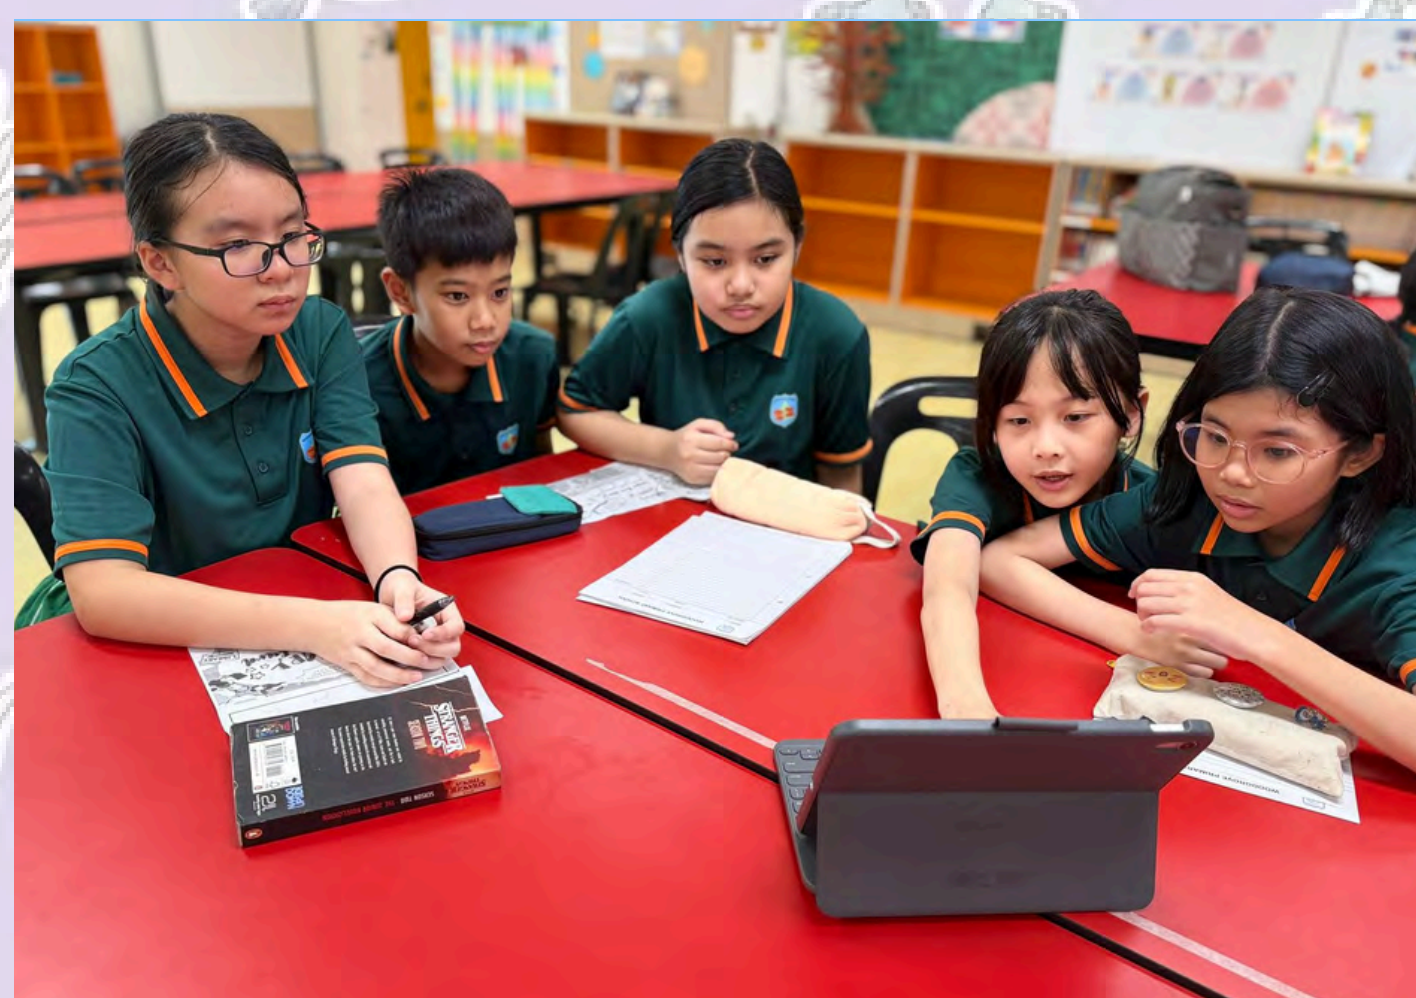

In Term 2, the P5 Woodgrovian Experience was filled with meaningful learning and memorable moments that supported students' growth and development. During A²Star Day, students practised gratitude towards the school community by crafting beautiful card bouquets to express their appreciation. They also participated in the Code for Fun programme, where they strengthened their coding and problem-solving skills through hands-on, collaborative activities using robotic kits. The term concluded on a high note with P5 Camp ACE, where students explored Science concepts through an engaging AR activity, built resilience and teamwork during the PE Challenge, strengthened class camaraderie, and enjoyed ice cream together while bonding with their classmates, creating lasting memories and deepening friendships.
