

EXPERIENCING WGPS LEARNING FESTIVAL

Our Primary 2 Woodgrovians had an exciting start to Term 3 with a range of engaging activities organised as part of the Learning Festival. They decorated their bag tags with inspiring Growth Mindset quotes and learned inline skating through the Primary 2 Sports Education Programme (SEP). The students also showcased their creativity folding Origami during the Makerspace Activity and deepened their understanding of Biodiversity. They also decorated pebbles with their classmates' names and encouraging words, which are then placed in their class 'terrarium' as part of the Primary 2 'Friendship Rocks!' activity. As part of their Social Studies and PAL curriculum, the students went on a fun learning journey at Admiralty Park, and learned more about the flora and fauna found in the nature trail. Such experiences have enriched and deepened their learning in a fun and meaningful way!
