

EXPERIENCING WGPS

LEARNING FESTIVAL and NE SHOW

The Primary 5 Woodgrovians started their Term 3 with a three-day fun-filled and meaningful Learning Festival. They embarked on a learning journey to Kampung Kampus, where they gained insights into the farming and food sustainability. Furthermore, they participated in a Virtual tour to China, providing them with a deeper understanding of Chinese culture, including the art and cultural context of popiah-making. In the same week, they attended the National Education Show, which was a preview of the National Day Parade. It definitely evoked a sense of National pride amongst the Woodgrovians and helped them to better appreciate Singapore.
