

CELEBRATING THE WOODGROVIAN EXPERIENCE

At the start of Term 4, our Primary 5 Woodgrovians participated in Part 3 of P5 Camp A.C.E. (Aspire, Contribute, Enrich Lives of Others), where they learned essential self-management and time-management skills. They embraced opportunities for growth through an exciting inter-class PE Challenge that fostered camaraderie and an engaging Augmented Reality Game designed to deepen their understanding of science concepts. Guided by the iGROW book activities in Term 4, our students explored ways to apply a growth mindset and embody the school's GRACE values. Additionally, they enjoyed playing class bonding games during Post-Exam activities, creating lasting connections with their classmates and celebrating the close of an enriching year together.
