EXPERIENCING WGPS

Celebrating the Woodgroviaan Experience

This term, our Primary 1 Woodgroviaans were thrilled to receive the "Connecting Our Generations" activity kits, which allowed them to craft creative papercraft items like a remote control holder alongside their families. They also enjoyed exploring an assortment of goodies in the tote bags provided by the Health Promotion Board after their Annual Health Screening exercise. These bags contained an inflatable ball, a skipping rope, and a kite, all intended to foster healthier habits at school and at home.

The joy continued during the Children's Day Celebration, where our Woodgroviaans bonded with their teachers and classmates during a lively class party. They engaged in various games at the booths and delighted in tasty treats of popcorn and ice cream. The excitement in the air was unmistakable, and they are eagerly anticipating even more wonderful experiences next year!
