

EXPERIENCING WGPS

LEARNING FESTIVAL

Our Primary 2 Woodgrovians kicked off Term 3 with an exciting Learning Festival filled with dynamic activities. Students expressed their creativity by creating ‘insects’ from ice-cream sticks during the Makerspace Activity. They also honed their inline skating skills as part of the Primary 2 Sports Education Programme (SEP) and enjoyed an energetic Zumba session. The fun continued with a lively Dance and Freeze activity during their SOAR lesson, seamlessly blending fitness with enjoyment. Additionally, the students embarked on an adventurous journey to Admiralty Park, where they explored the rich diversity of flora and fauna along the nature trail. These engaging experiences have transformed learning into a joyful and meaningful adventure for our Woodgrovians.
