

An Organiser for Diagnosing Students' Learning Needs

Student's Name	What does the student's work tell you about the student's language competencies? Describe what you listen to/see in the script & give the evidence to support your description.	What do you think the student is doing well in? Why do you think so?	What do you think the student is struggling with? Why do you think so?	What does the student need to learn more about? What steps do you plan to take to help the student progress?
