

Assessment and Promotion Criteria

Every student is encouraged to take responsibility for his own learning. The school's assessment modes and weighting will enable students to develop independent and consistent learning throughout the year.

Assessment Modes and Weighting

- 1) For Secondary 1 to 3 students
 - Assessment of the overall performance of a student is based on the whole year's assessments administered by the school.
 - The computation of marks for the first semester is the combined marks for Weighted Assessments (WA) 1 and 2. The computation of marks for the second semester is the combined marks for all WAs and End of Year Examination (EYE). Various modes of assessment may be used for the Weighted Assessments which comprise class tests, assignments, project work, etc.
 - The weighting of every assessment component (WA1-3 and EYE) contributes to the overall percentage of 100% for the year (as displayed in Table 1).

TABLE 1

The weighting for Weighted Assessments and End of Year Examination for all subjects is as follows:

Applicable to all Secondary 1 to 3 students			
Weighted Assessment (WA1)	Weighted Assessment (WA2)	Weighted Assessment (WA)	End of Year Examination (EYE)
15%	15%	15%	55%
100%			

- 2) For Secondary 4 and Secondary 5 students, computation of results will be based on Prelims (100%)

Offering subjects at More Demanding Level (MDL) or Less Demanding Level (LDL)

Sec 1 and 2 students who show good academic performance may be offered the option of taking up a subject at a more demanding level.

- Students who are deemed to be unable to cope with academic demands can be offered a less demanding level (LDL) for the subject.
- Please refer to the criteria for MDL and LDL via the QR code below:
