Important Note:

1. Students absent for a weighted assessment must produce a Medical Certificate (MC) for that day. Marks will be pro-rated accordingly. Only MCs from registered medical practitioners under the Medical Registration Act are recognized.
2. Students representing the school in competitions, such as the National School Games (NSG), during a weighted assessment will have their marks pro-rated.
3. There is no make-up for Listening Comprehension and main written papers during the End-of-Year Examination.
4. Students absent for main written papers will not qualify for academic awards.
5. Weighted assessments will be conducted during respective subject periods on the scheduled day. For Science, if there is no Science period that day, the assessment will take place during another lesson.
6. Marks to be confirmed within 3 days upon return of papers.

Types of Marks and Award Criteria

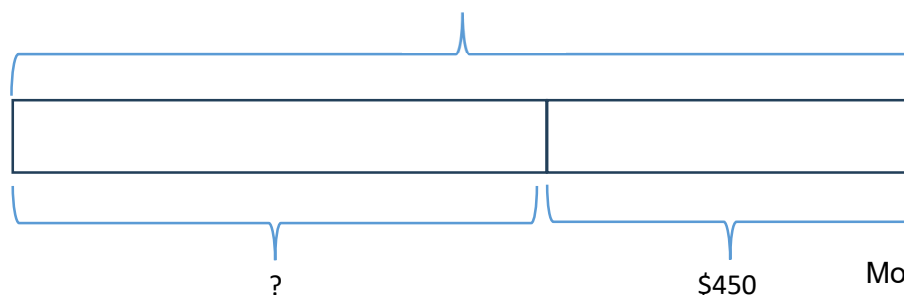

Mark types	How they are awarded
Method Mark (M Mark)	- Awarded for applying the correct mathematical approach or strategy. - Awarded for alternative methods that are mathematically correct. - Not awarded if the method is mathematically incorrect, even if it produces the correct answer.
Answer Mark (A Mark)	- Awarded for a numerically correct answer. - Not awarded for 'correct' answers obtained from incorrect methods or when no working/methods are shown.

Presentation of Work

Students **must** present their mathematical work clearly and systematically. Please refer to the examples below for guidance on proper work presentation.

Example

Siti had \$1200. She bought a laptop and had \$450 left. How much did the laptop cost?

Left $\rightarrow \$1200 - \$450 = \$750$

Writing equation(s)

She had \$750 left.

Write the final answer. Students are also encouraged to write a final statement. Marks will be awarded based on whichever is more accurate (the final answer or the final statement).

Ans: \$750

A	MCQ	30	2	60	
B	Structured Questions	10 to 11	2-5	40	
Total				100	1h 45min

Marking Guideline for Science

Students are required to provide all components of an answer, which may include key scientific concepts, reasons, evidence, and explanations, in order to be awarded full marks. Partial marks are not typically awarded. Exceptions are limited and apply only to questions that assess multi-step reasoning or scientific processes. In such cases, partial marks may be given in accordance with the standardised marking scheme appropriate to the level.

Social Studies

	Item Type	Weightage
Activity Book components (ongoing)	Short Answers, fill-in-the-blanks and Open-ended Questions	40%
Performance Task	Students will work in groups to develop a tangible product or performance for an identified audience and in doing so, they will apply their knowledge, skills and values in a real-world context.	60%

A letter grade (A, B or C) will be awarded at the end of Semester 2.

Physical Education*

Learning Area	Learning Outcome	Formative Assessment Feedback
Athletics	Run varying the pace over a distance of up to 1600m. Demonstrate an understanding of jumping for height and distance with a single-foot take off using a short approach run/ over an obstacle. Demonstrate an understanding of how an object can be thrown to achieve greater distance.	Rubrics with band descriptors A letter grade will be reported at the end of the year.
Dance	Perform the following pre-designed movement experiences and repeat with modifications (e.g., music, movement phases, formation). • CEIMO CEIMO • Apat Apat • Slappin' Leather	
Games & Sports	Able to apply game concepts to participate in modified small-sided games (i.e. 1v1, 2v2, 3v3) 1. Net barrier games (LLP Tennis) - Winning the point/ defending against an attack - Setting up an attack/ defending space 2. Invasion territorial games - Keeping possession of the ball/ regaining possession of the ball - Using space to invade/ delay the invasion - Creating space to invade/ denying space to invade - Attacking the goal/ denying scoring opportunities 3. Striking fielding games - Sending into space/ defending space	
Gymnastics	Recognise the different locomotor movements and explain the differences and similarities in these movements. Demonstrate an understanding of different positions in relation to a partner and apparatus when travelling in space.	
Outdoor Education	Explore different places in the school and its neighbourhood safely through visual representations and pack a backpack for a trip with an overnight camping component while adopting environmentally sustainable practices.	

Physical Health & Fitness	Understand the need to balance diet with physical activity to ensure healthy growth. Understand the importance of health-related and skill-related fitness in maintaining good health and physical performance. Identify good health habits and practices such as personal hygiene, how to care for eyes and ears to minimize eye infections and transmissible diseases.
