PREFECTORIAL BOARD

TERM 2, 2025

STUDENT AGENCY TAKES FLIGHT AT WEST VIEW

In Term 2, West View's very own P6 Prefects set out to tackle a problem in school they are passionate about.

Divided into four teams, they made use of the Design Thinking approach to understand the needs of their audience, narrow down the scope of the problem, ideate various solutions and finally, design a solution that could address the issue. Some teams even managed to test their solutions in school. This is our P6 Prefects' Student Agency Project.

Read about the P6 Prefects' Student Agency Projects in the next panel.

Our P6 Prefects shared that they had to be active in learning and enterprising in order to come up with solutions to their problems. These TALENT values continued to be important as they remained tenacious in creating and testing their prototypes.

"I was enterprising because I helped to come up with creative solutions to our problem," **Clarissa Dsouza from 6 Empathy** wrote when asked which TALENT value she had to apply when doing the project.

Aside from that, many shared that they have become a better leader by developing their interpersonal skills, confidence and ability to collaborate as a team.

Our Student Leaders used a variety of tools to discuss and collaborate in order to prototype their solutions.

When asked about how she has become a better leader, **Nur Falisha from 6 Confidence** responded, "It has helped me to be more confident to speak in front of others and to lead my friends if they are not sure what to do."

As our P6 Prefects conclude their projects, we hope the skills they have learnt during their Student Agency Project will position them well to serve their friends, school and community in the future.

Do you see a problem in school that you would like to solve? Great! Take the first step! Form a team of four interested friends and tell Mr Yip about it. He will guide you in the next steps for your very own Student Agency Project.
