

During my journey as a Vice-Head Prefect, and a Head of Safety Squad, I have learnt and done many things that I know that I won't get a chance to do. For example, the Teachers' Day Celebration. I had to memorise the script, and had to dance, host and sing for the teachers and also give some motivation to the West Viewans to sing. I had to be tenacious, enterprising and active in learning. To prepare for such events, we had to meet up on certain days to practise and had to stay after school till about 5 pm on some occasions. During this period of time, the other Heads and I had to negotiate as we had different ideas and could not decide on which to choose. We needed to be Empathetic to respect everyone's ideas. Mr Yip also helped us in this particular area, and in the end, we managed to agree on an idea.

During this journey, I have faced my fears of standing on stage, hosting events, speaking up when giving ideas and speaking proudly in front of teachers and fellow Prefects. I had to be tenacious in doing so.

WHAT ARE OUR STUDENT LEADERS SAYING?

Aden Tay
Kai Rui

Vice-Head Prefect 2024/2025

During the Student Agency Project which ended recently, I felt that it was too short. This was because I could not keep up with the scheduling to interview Ms Jaya and it was also difficult to meet up with my teammates to discuss things. I needed to be more enterprising and tenacious to find opportunities to meet up with my teammates and at the same time to keep up with the schedule. We then had no choice but to discuss during recess as that was the time that all of us were available. I could have done better by opting to discuss in the mornings or after school to sacrifice our fun and time to eat during recess.

Another part I wanted to improve on is checking the duty lists thoroughly. I will find mistakes in my duty lists only after they begin. At that point, I felt regretful for not checking the duty lists thoroughly. I needed to be more trustworthy to keep checking the duty lists whether they are correct.

In the future, if I have such opportunities again, I will make sure that I check the duty list at least 3 times and also to approach any teacher when needed or in doubt.

Although I have gone through many experiences that may be tiring and difficult, I hope that I will still have such opportunities in the future. I am very thankful to be a Vice-Head Prefect as it is a difficult, fun and rare role, and I know that I should use my opportunity during this period to serve others.
