

NATIONAL ALLIED HEALTH STRATEGY

Vision

To shape a future-ready Allied Health workforce to meet tomorrow's health and social needs.

AHPs of Tomorrow

Versatile experts in their domains, with broad spectrum skill sets

Able to operate across settings and adapt to evolving patient needs

Autonomous and essential partners in care

- Able to drive care decisions with greater clinical autonomy
- Critical member of interprofessional care teams

Innovative leaders beyond traditional professional boundaries

Able to shape healthcare policy and drive innovation

3 Strategic Areas

Recognition

Elevating professional recognition through better clarity on roles, standards, value and contribution to quality care

Innovation

Advancing and transforming AHP practice to provide sustainable and integrated care

Sustainability, Education & Professional Development

Building a sustainable and responsive AHP workforce through strategic manpower planning and diversified training pathways.

RISE Above, Care Beyond

Implementation

The NAHS Implementation Committee and relevant workstreams have been established. Workstreams will progressively develop tools and frameworks to guide the development of AHPs.
