The value of the Banker's Guarantee should be equivalent to or more than the estimated amount of LD. The surety has to set aside and lock in the full amount of estimated LD for the entire duration of studies and bond period; or

(iii) Title Deed
Property can be accepted as a proof of assets if the mortgage on the property is fully paid and the value of the property is equivalent to or more than the estimated amount of liquidated damages. Both private and public property can be accepted as long as the mortgage is paid up.

HDB property:

¹ The LD values are calculated using estimated annual tuition grant disbursed by the Ministry of Education (MOE) over the course of student's study, with 10% annual compound interest added.

Notes

- 1) The financial status of each surety will be assessed independently.
- 2) Surety's CPF savings and insurance policies are NOT accepted.
- 3) Parents who are currently serving as sureties for their other child(ren) for similar Agreements with the Government of Singapore will only be permitted to serve as sureties for this current Agreement using different proof of financial means. For example, if the parent uses his monthly income statement as proof of financial means to qualify as a surety for his first child, he has to provide a different proof of financial means such as Title Deed to qualify as surety for his second child. This provision applies to parents of students only.
